

Fitted coefficient norm $\|\hat{\beta}\|_1$

median; shading: 10-90%

$d = 10, s = 5, B = 15, \sigma^2 = 0.25, k = 10$

$K = 3.6, M = 1, \gamma = 0.01, \text{ground} = \ell_\infty$

$n \in [2560, 163840]$ (9 sizes)
